BACHELOR OF SCIENCE IN INFORMATION SYSTEMS

The accelerated program in Information Systems is based on common structures and degree programs in the United States and Canada. It also meets the recommendation of the Association for Computing Machinery, which sets standards for such programs. The program prepares students for careers in a variety of technology fields as well as graduate study.

The degree will be awarded upon completion of:
- Information Systems core requirements
- General Education course requirements
- 126 college credits
