

MATHEMATICS

What is Mathematics?

“Mathematics is one of the oldest and most fundamental sciences. Mathematicians use mathematical theory, computational techniques, algorithms and the latest computer technology to solve economic, scientific, engineering, physics and business problems.” (from <http://www.bls.gov/ooh>)

“Mathematics is the study of the measurement, properties and relationships of quantities and sets, using numbers and symbols. It is a body of related courses concerned with knowledge of measurement, properties and relations quantities, which can include theoretical or applied studies of arithmetic, algebra, geometry, trigonometry, statistics and calculus.” (from <http://uncw.edu/career/mathematics.html>)

What are the career opportunities for a mathematics concentrator?

Related Career Titles (Some may require education beyond bachelor’s degree.)(from <http://uncw.edu/career/mathematics.html>)

Actuary	Cost Estimator/Analyst	Inventory Control Spec.
Aerospace Engineer	Cryptographer/Cryptologist	Investment Banker
Air Traffic Controller	Data Control Administrator	ISO 2000 Specialist
Applications Programmer	Data Processing Manager	Market Research Analyst
Applied Science Technologist	Database Manager	Mathematician
Artificial Intelligence	Demographer	Media Buyer
Astronomer	Econometrician	Meteorologist
Banking/Credit/Invest. Mgr.	Economist	Mortgage Researcher
Biometrician/ Biostatistician	EDP Auditor	Network Programmer
Commodity Manager	Employee Relations	Numerical Analyst
Compensation/Benefits Adm.	Engineer	Operations Research Analyst
Computer Consultant	Engineering Lab Technician	Physicist
Computer Engineer	Environmental Technologist	Pollution Meteorologist
Computer Facilities Mgr	Estate Planner	Production Manager
Computer Installation	External Auditor	Production Support
Computer Marketing Rep	Financial Auditor	Psychometrician
Computer Programmer	Financial Consultant	Public Health Statistician

Computer Scientist	Financial Manager	Purchasing/Contract Agent
Computer-Aided Design Tech.	Hydro Geologist	Quality Assurance Analyst
Loan/Credit Officer	Hydrologist	Rate Analyst
Cartographer	Software Engineer	Teacher
Research Analyst	Software Support Specialist	Technical Support Rep.
Risk & Insurance Specialist	Statistician	Technical Writer
Risk Analyst	Systems Analyst	Transportation Planner
Robotics Programmer	Systems Engineer	Treasury Management Spec.
Satellite Communications	Systems Programmer	Underwriter
Software Developer	Urban Planner	Value Engineer
Industrial/Institutional Buyer	Mathematics Editor	Weight Analyst

How do you get ready? (from <http://career.utk.edu/students/majors/pdf/mathematics.pdf>)

- Math majors develop transferable skills, including critical thinking, problem diagnosis and solving, computer skills, and quantitative skills.
- A bachelor's degree is often sufficient for entry-level positions, but an advanced degree may open the door to more upper-level opportunities. Pair a strong background in mathematics with another technical discipline, such as computer science or engineering.
- Gain experience through volunteering, internships, and part-time or summer jobs.
- Develop competencies in a specific area of interest.
- Supplement curriculum with courses in business, economics, computers or statistics for increased job opportunities.
- Maintain a high grade point average. Demonstrate attention to detail and commitment to accuracy.
- Build relationships with faculty for career information, contacts and letters of recommendation.
- Join related student professional associations and seek leadership positions.
- Develop the ability to work well in teams.
- Conduct informational interviews with professionals in areas of interest to enhance knowledge and make contacts.
- Stay informed of new developments and current trends in the field.

Related Major Skills (from <http://uncw.edu/career/mathematics.html>)

Problem solving	Organizational skills	Numerical computation
Ability to analyze & interpret data	Critical thinking	Computer literacy
Logical thinking	Team skills	Efficient
Systemizing skills	Advanced quantitative skills	Testing skills

What about the future?

“Employment of mathematicians is projected to grow 21 percent from 2014 to 2024, much faster than the average for all occupations. However, because it is a small occupation, the fast growth will result in only about 700 new jobs over the 10-year period.”
