

# HOW DO I CREATE AND GRADE A VIDEO ASSIGNMENT?

Moodle offers a tool that makes it easy for students to create and submit video to an assignment. The assignment will link directly to Kaltura, our media platform, and can be graded just like other assignments.

In the section where you want to add the assignment, **click** [Add an activity or resource](#).

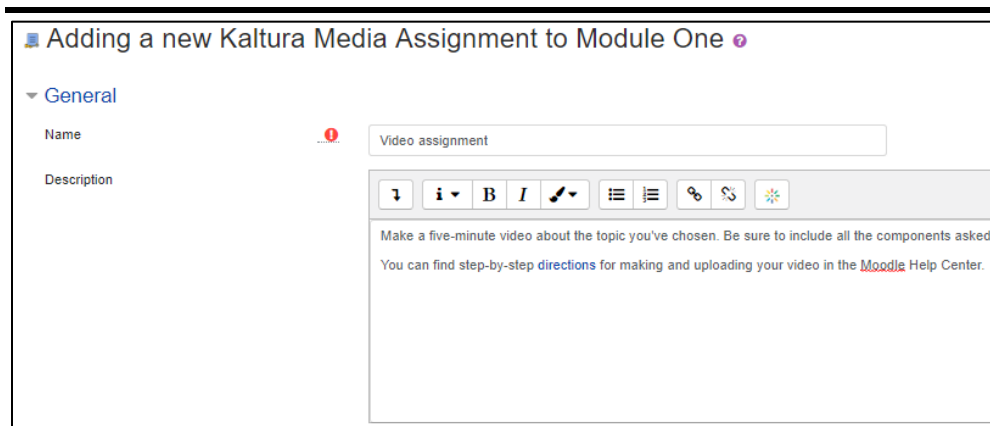

**Click** [Kaltura Media Assignment](#). **Click** [Add](#).

**Fill in** the assignment [name](#). This is the link that will appear on your course page. You can enter directions in the description field. You can also include a link to the relevant help document for students in the Moodle Help Center. Be sure to address the Grade and Activity Completion areas before you **click** [Save and return to course](#).

# HOW DO I CREATE AND GRADE A VIDEO ASSIGNMENT?

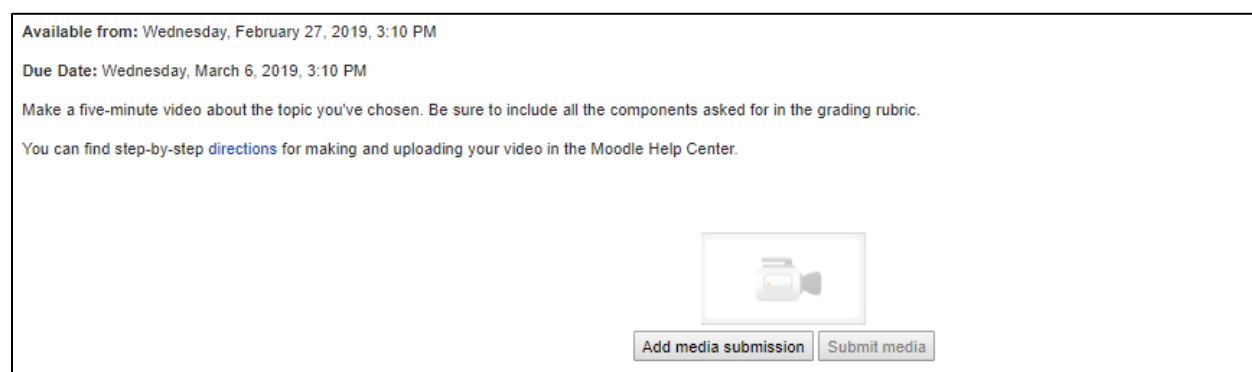

Adding a new Kaltura Media Assignment to Module One

General

Name: Video assignment

Description: Make a five-minute video about the topic you've chosen. Be sure to include all the components asked for in the grading rubric. You can find step-by-step [directions](#) for making and uploading your video in the [Moodle Help Center](#).

When students click the assignment, they'll see this:

Available from: Wednesday, February 27, 2019, 3:10 PM

Due Date: Wednesday, March 6, 2019, 3:10 PM

Make a five-minute video about the topic you've chosen. Be sure to include all the components asked for in the grading rubric.

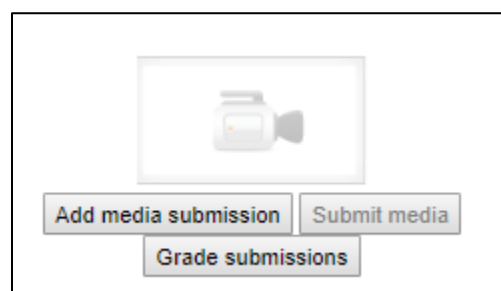

You can find step-by-step [directions](#) for making and uploading your video in the Moodle Help Center.

[Add media submission](#) [Submit media](#)

Clicking Add media submission will take them to their Kaltura media repository, where they'll choose the video they want to submit.

Grading video submissions works just like grading any other assignment. You'll **click** the [assignment](#). Then **click** [Grade submissions](#). **Click** [Grade](#) beside any student. **Enter** the grade and your feedback and **click** [Save changes](#) or [Save and show next](#).
