

ADDING SIMCHECK TO AN ASSIGNMENT

Simcheck, a product of Turnitin, is Albright's plagiarism checker. It replaces Vericite and has increased functionality. The repository of papers that were uploaded to Albright's Veracite system through Moodle has been moved to Albright's Simcheck account.

To enable SimCheck for an assignment in Canvas, **click *Edit*** at the upper right in the appropriate assignment. The submission type for the assignment must be set to Online submission and file uploads.

Check the *Bibliography* and *Quotes* boxes to have so that the bibliography page and material within quotation marks are ignored.

Uncheck the *Index all submissions* if this submission is a draft. Unchecking the box means that the final copy, when submitted, will not be compared with the draft.
