

Albright College Health and Safety Plan
COVID-19 Pandemic Plan, Academic Year 2020-2021
Phase One, July 6, 2020

A. Introduction

One of Albright's [core values](#) is connection, in which we specifically state the value of an equitable and inclusive community, within the Albright community that is comprised of a remarkable diversity of people, backgrounds and thoughts. Within this concept, we endeavor to foster strong, personal relationships and engagement with each other, college programs, the greater Reading area, and the world around us. At Albright College, we value our face-to-face interactions. The COVID-19 pandemic has significantly challenged our ability to live in, work at, and enjoy our in-person community.

This Albright College Health and Safety Plan has been prepared to communicate to all Albright constituencies the plans surrounding Albright's return to face-to-face education. This plan endeavors to address the challenges the pandemic presents to our institutional priorities and commitment to a residential, face-to-face community. Within this plan, the following goals have been put at the forefront:

1. To live our value of a connected, inclusive and face-to-face community as best we can during a pandemic.
2. To live our values of resilience and integrity by recognizing and honoring the collective importance of care for ourselves and others in our community so that we may all thrive and be well during this pandemic.

We recognize that, at times, these goals challenge each other and a commitment to both represents a balance. Importantly, this plan includes all of the [Pennsylvania Department of Education \(PA DOE\) requirements for a higher education health and safety plan](#) (see also below). In addition, this plan aligns with return-to-campus guidelines presented by both the [Centers for Disease Control](#) (CDC) and the [PA DOE](#) and [PA Dept. of Health](#) (PA DOH). For athletics, guidance from the [NCAA](#) and from the [MAC athletic conference](#) are also followed, as they become available.

Albright is committed to having in place policies and procedures that will provide for the health and safety of employees, faculty, students, community members, and visitors. Towards that end, faculty have been given the opportunity to teach courses online or face-to-face or as a hybrid of the two. The goal is to provide choices for faculty and to decrease the face-to-face time in classrooms. Staff and administrative employees have the opportunity to telework, as provided by the policy appended to the end of this Health and Safety Plan. Again, the goal is to provide employees with choices, if possible, recognizing the requirements of our face-to-face residential community.

To honor our commitment to having policies and procedures in place, to balance the above two goals, and to move towards start of classes for the fall 2020 semester on August 17, 2020, this plan will move forward in three phases, as described below. These three phases allow the Albright community to rebuild our face-to-face, residential work slowly, and safely, and provide the opportunity for modification quickly or between phases, should that become necessary.

Albright College Health and Safety Plan, 2020

Version 1, July 6, 2020

Phase 1 will start on July 6, 2020. During Phase 1, employees returning to the campus include staff in athletics, residential life, controller's office, Center for the Arts, library, and digital strategies and infrastructure. Please note that the health and safety strategies contained herein also pertain to the emergency essential personnel in the dining hall, facilities maintenance and custodial services, Gable Health Center, public safety and residential life who have been working on campus throughout the pandemic.

Also, coinciding with Phase 1, Albright's Schumo Center for Fitness and Well-Being will be open by reservation for individual workout sessions, and its pool will be open for individual swim sessions. These initial employees were identified as those who have the most work that must be accomplished on-campus to be ready for the fall and those who wish to return to campus and can safely do so in relative isolation.

This first version of the Health and Safety Plan focuses on the policies and procedures that Albright has put in place for Phase One. It will be updated as we reach each phase.

Phase 2 will start on July 27, 2020. During Phase 2, employees returning to campus include staff in athletics, advancement, student accounts, academic affairs, enrollment, and student and campus life. This group includes those who will need to be on site to continue readying the campus for student arrival.

Phase 3 will start on August 12, 2020. During Phase 3, employees returning to campus include staff in athletics, academic affairs, advancement, finance and operations, enrollment, student and campus life, communications, and digital strategies and infrastructure.

Coinciding with Phases 2 and 3 will be the return of students to Albright's residence halls. Move-in will begin on August 1 for residents of Rockland Hall and will continue through August 17, at which time all students who are living on campus for the first fall session will be on campus.

Also coinciding with Phase 3 will be the start of on-campus and online instruction for students on August 17.

As noted above, PA DOE has asked all colleges to create a [Health and Safety Plan](#). As a part of this Health and Safety Plan, the PA DOE has asked colleges to address the following nine areas. This plan works to address these areas, as appropriate (see also [this link](#)):

1. A strategy on how the institution will coordinate with local public health officials, or the equivalent of;
2. A strategy to safely resume in-person instruction;
3. A strategy to monitor health conditions on its campus community;
4. A strategy to mitigate and contain the spread of the virus on campus, and to inform the PA DOH in the event that transmission occurs at the institution;
5. A strategy to communicate accurate and timely information to students, faculty, staff, and the communities it serves;
6. Reinforcement of practices related to hygiene, sanitation, and face coverings on campus;

Albright College Health and Safety Plan, 2020

Version 1, July 6, 2020

7. Implementation of social distancing interventions and necessary modifications to facilities that may create an environment conducive to healthy, safe, equitable and inclusive learning;
8. Review and adjustment of attendance requirements, absentee policies, and non-essential travel for students, individuals at high risk of COVID-19, and personnel;
9. Modification of course modalities, schedules, and academic calendars to adapt to changing transmission levels and community spread of the virus.

Please note that, because each of the nine areas the PA DOE has identified are not applicable to each of Albright's three reopening phases, this Health and Safety Plan focuses on addressing *applicable areas* the PA DOE has identified for each phase. For instance, during Phases One and Two, there will be no in-person instruction of students. As such, the PA DOE's areas (2) and (9) do not apply during these phases.

The COVID-19 pandemic is constantly evolving. In addition, the CDC, PA DOE and PA DOH continuously evolve their guidelines. Albright is aware that it may need to adjust plans before a particular reopening phase commences. Consequently, rather than sowing confusion with multiple plan revisions, ***Albright will update and publish its Health and Safety Plan prior to the commencement of each phase, or more immediately should changing guidelines or circumstances warrant. If you have questions about this plan, please contact Ann Thompson, director of human resources, athompson@albright.edu.***

B. Phase One

1. A strategy on how the institution will coordinate with local public health officials or the equivalent thereof.

Reading, Pa., has no local public health officials with whom Albright may coordinate. Albright will continue to consult public health officials in Harrisburg and efforts will be coordinated as a result of that outreach. Albright continues to monitor and follow all applicable federal, state, and local health guidance and regulations.

2. A strategy to monitor health conditions on its campus community.

As described further below, Albright will monitor health conditions for all employees on its campus by using an initial return to on-campus work screening form, along with the Healthy Together App (and a daily questionnaire for those without access to the app), which include daily review of a set of health screening questions for each community member.

Beyond the measures it has in place for all employees, as described further below, Albright also has specific measures in place to monitor the health conditions of its athletics, Schumo Center and aquatics staffs, due to the nature of increased risk of exposure in athletics settings.

Furthermore, given that Albright's Schumo Center for Fitness and Well-Being will be open during Phase one by reservation for individual workout sessions, and its pool will be open for individual swim sessions, as described further below, Albright has developed specific measures for monitoring the health of fitness participants.

a. Initial Employee Return to On-Campus Work Screening Form

Before any employee returns to campus, they will complete an initial return to on-campus work screening form in Dayforce, which will require employees to answer the following questions:

- Have you previously been or are you currently diagnosed with COVID-19?
- In the last 14 days have you been living in or visited a place where COVID-19 is spreading and/or is an area reporting an increased number of COVID-19 cases?
- In the last 14 days, have you had direct contact with someone who has a suspected or confirmed case of COVID-19?
- In the last 14 days, have you had any of the following symptoms: fever (100.4°F), chills, extreme fatigue, cough, pain or difficulty breathing, shortness of breath, sore throat, body aches, loss of taste or smell, eye discharge?

If an employee answers 'yes' to any of the above questions, the form will be automatically sent to the Gable Health Center. The employee will be responsible to self-isolate, and to call and speak with the Health Center before they return to campus. Also, if, in its review of these forms, an employee answers 'yes' to any of the above questions, Albright's Health Services may, on its own, and without any contact from the employee, contact another employee for more information.

b. Healthy Together App and Health Screening Questions

After the initial return to on-campus work screening form, all employees will conduct a daily self-screening for COVID-19 by using the Healthy Together App or by answering a set of health screening questions.

If the Healthy Together App or the set of health screening questions directs a particular employee to be tested for COVID-19, the employee is instructed not to come to campus. That employee will be directed to contact their supervisor and Albright's Gable Health Center. Albright will then encourage the employee to go to their own personal health care provider in order to receive further medical assistance.

The set of health screening questions employees may use each day in lieu of the Healthy Together App are below. Please note, these questions serve as a symptom checker, just like the app. Responses are not recorded and do not need to be sent to a supervisor unless an employee answers yes to the symptoms (see above paragraph).

Are you currently experiencing any of the following symptoms?

SYMPTOM	YES	NO
Fever (100.4 F or greater)		
Body Chills		
Extreme level of fatigue		
Cough		
Pain/Difficulty Breathing		
Shortness of Breath		
Sore Throat		
Body/Muscle Aches		

Loss of Taste
Loss of Smell
Changes to Vision/Eye Discharge

Have you had any direct contact with anyone who lives in or has visited a place where COVID-19 is spreading and/or is an area reporting an increased number of COVID-19 cases (i.e. “hot spots”)?

Yes No

Have you had any direct contact with someone that has a suspected or lab confirmed case of COVID-19?

Yes No

If an employee answers ‘yes’ to any question, the employee should not come to campus. The employee should contact their supervisor and Albright’s Gable Health Center. Albright will then encourage employees to go to their own personal health care provider in order to receive further medical assistance.

c. Athletics Staff

Beyond the measures it has in place for all employees, Albright also has further measures in place to monitor the health conditions of its athletics staff, due to the nature of increased risk of exposure in athletics settings.

Prior to returning to campus, all athletics staff will complete an initial COVID-19 screening form. This form will ask athletics staff members to identify possible COVID-19 symptoms such as a fever, cough, sore throat, and loss of taste. It will also ask athletics staff to list any counties/states/cities they have visited since March 15, 2020. Finally, it will ask athletics staff to list any individuals they may have come into contact with during the previous five days. The purpose of asking staff members to list any individuals that they may have come into contact with during the previous five days is to gather information for any contact tracing that may need to be conducted.

A complete copy of the initial screening form for athletics staff can be found in **Appendix A**. This form gets submitted electronically to Rick Partsch, head athletic trainer, rpartsch@albright.edu.

If the initial screening form indicates that an athletics staff member may have COVID-19, that staff member will be asked to get tested for COVID-19 with his or her personal health care provider.

Also, beyond completing an initial screening form prior to returning to campus, all athletics staff will have their temperatures taken daily before entering any athletics building. Anyone with a temperature above 100.4°F will be denied entrance to the building they work in, and will not be permitted to return to work until they have no fever and no evidence of COVID-19 symptoms. Albright will then encourage the staff member to go to their own personal health care provider in order to receive further medical assistance.

d. Schumo Center/Aquatics Staff

Albright College Health and Safety Plan, 2020

Version 1, July 6, 2020

Beyond the measures it has in place for all employees, Albright also has further measures in place to monitor the health conditions of Schumo Center and aquatics staff, due to the nature of increased risk of exposure in athletics settings.

All Schumo Center and aquatics staff are asked to self-screen daily by taking their temperature and answering a series of health screening questions either through the Healthy Together app or a hard copy form (Appendix B), which is available at the Schumo Center front desk. This daily screening form asks Schumo Center and aquatics staff to identify possible COVID-19 symptoms such as a fever, cough, sore throat, and loss of taste. Thermometers are also available at the Schumo Center desk. Anyone with a temperature above 100.4°F will not be permitted to work and will be encouraged to go to their own personal health care provider in order to receive further medical assistance.

A complete copy of the daily screening form (hard copy version) for Schumo Center and aquatics staff can be found in **Appendix B**. This form is in lieu of the Healthy Together app. Copies are available at the Schumo Center front desk. Questions about this process should be directed to Alison Burke, director of the Schumo Center, aburke@albright.edu.

If the daily screening form indicates that a Schumo Center or aquatics staff member may have COVID-19, that staff member will be asked to get tested for COVID-19 with their personal health care provider.

e. Fitness Participants using Schumo Center/Aquatics Facilities

During Phase One, Albright's Schumo Center for Fitness and Well-Being will be open by reservation for individual workout sessions, and its pool will be open for individual swim sessions.

Upon entering the fitness center or pool, patrons will be asked to sign in, and they will be asked if they have used the aforementioned Healthy Together App to conduct a self-screening. If so, and if the Healthy Together App has indicated it is safe for a patron to enter the fitness center or pool, that individual will be allowed to enter these premises.

If, upon signing in, an individual has not used the aforementioned Healthy Together App to conduct a self-screening, such an individual will be given two options:

1. The individual can download the Healthy Together App and conduct a self-screening with it on the spot. If the Healthy Together App indicates it is safe for a patron to enter the fitness center or pool, that individual will be allowed to enter these premises.
2. In lieu of the Healthy Together App, an individual will be given the option to answer the screening questions found in **Appendix B**. If, after completing the screening form in Appendix B, it is found that it is not safe to allow a patron to enter the fitness center or pool, the patron will not be allowed to enter.

3. A strategy to mitigate and contain the spread of the virus on campus, and to inform the PA DOH in the event that transmission occurs at the institution.

In the event that it is discovered that someone on Albright's campus has a COVID-19 infection, Albright will use proper cleaning protocols for areas that the infected individual contacted. Also, Albright will institute contact tracing, which has been set up with the PA DOH, to discover other people with whom the infected individual may have come into contact. The infected individual will not be permitted to

return to campus until they are symptom-free as noted by CDC guidelines. Albright's Gable Health Center will contact the PA DOH in the event that someone on campus has tested positive for coronavirus.

4. A strategy to communicate accurate and timely information to students, faculty, staff, and the communities it serves.

Albright's strategy to communicate accurate and timely information to all students, faculty, staff, and the communities it serves involves a multi-platform approach that incorporates email, text messaging (for urgent communication), social media, on-campus posters and signage, and a centralized website with all information related to COVID-19 and Albright's Return to Campus. The website can be located at: <https://www.albright.edu/about-albright/buildings-facilities/gable-center/covid-19/>.

Some of the material on the website includes:

- Health Alerts (<https://www.albright.edu/about-albright/buildings-facilities/gable-center/covid-19/health-alerts/>)
- Messages for Faculty and Staff (<https://www.albright.edu/about-albright/buildings-facilities/gable-center/covid-19/messages-to-faculty-and-staff/>)
- Instructional Videos (<https://www.albright.edu/about-albright/buildings-facilities/gable-center/covid-19/coronavirus-conversations/>)
- FAQ's (<https://www.albright.edu/about-albright/buildings-facilities/gable-center/covid-19/#FAQ>)
- Specific information about the return to Albright's campus (<https://www.albright.edu/about-albright/return-to-campus/>)

5. Reinforce practices related to hygiene, sanitation, and face coverings on campus.

a. Campus-Wide Policies

For all employees, faculty, and students, through the Albright Community Care Compact, Albright has instituted the following campus-wide policies related to hygiene, sanitation, and face coverings:

- Utilizing hand sanitization stations throughout Albright's campus and frequently washing hands for at least 20 seconds.
- Sanitizing surfaces that are used frequently, including tables, door knobs, desks, light switches and computer keyboards.
- Wearing a mask, as [recommended by the CDC](#), that covers the nose and mouth on campus, both inside and outside buildings when within six feet of another person, unless actively eating.

b. Further Specific Measures

Beyond the campus-wide policies, as described within, Albright has further specific measures in place regarding hygiene, sanitation, and face coverings for its:

- 1) Facilities Department

- 2) College Events Department
- 3) Residential Life staff
- 4) Gable Health Center
- 5) Controller's Office
- 6) Center for the Arts
- 7) Library
- 8) Athletics staff
- 9) Schumo Center/Aquatics staff and fitness participants

These are areas of the campus frequented by those who are not Albright employees or students and/or for which staff come in regular contact with those who are not Albright employees or students.

1) Facilities Department

Facilities will clean and sanitize (using a hospital grade disinfectant) high-touch areas at a minimum of one time per day. This will include, but will not be limited to, doors, light switches, bathrooms, and gathering areas.

Facilities will also clean and sanitize classrooms and workspaces overnight. This will include, but will not be limited to, classroom desks and tables, workspace countertop areas, and common room areas.

2) College Events

This department has been provided with nitrile gloves, cloth masks, disinfecting wipes, spray bottle with cleaning solution, and cloth rags. Staff in this area will use these materials as appropriate and needed to promote proper hygiene and sanitation.

3) Residential Life

This department has been provided with Lysol sanitizing sprays, nitrile gloves, cloth masks, disinfecting wipes, spray bottle with cleaning solution, and cloth rags. Staff in this area will use these materials as appropriate and needed to promote proper hygiene and sanitation.

4) Gable Health Center

Employees wear masks when around other people and patients, and hand sanitizer has been placed in each room.

5) Controller's Office

This department has been provided with disinfecting wipes, nitrile gloves, cloth masks, and spray bottle with cleaning solution. Staff in this area will use these materials as appropriate and needed to promote proper hygiene and sanitation.

6) Center for the Arts

This department has been provided with nitrile gloves, cloth masks, disinfecting wipes, spray bottle with cleaning solution, and cloth rags. Staff in this area will use these materials as appropriate and needed to promote proper hygiene and sanitation.

7) Library

This department has been provided with nitrile gloves, cloth masks, disinfecting wipes, spray bottle with cleaning solution, and cloth rags. Staff in this area will use these materials as appropriate and needed to promote proper hygiene and sanitation.

8) Athletics

Throughout the facilities where athletics staff areas of work, there will be individual and mobile hand sanitizing stations. Disposable towels will also be used in athletics facilities. Throughout athletics facilities, there will be biohazard containers and bags. Athletics training staff will also be provided with face masks, gloves, eye protection, gowns, spray bottle with cleaning solution, cloth rags, and non-contact infrared thermometers. Finally, Albright will provide athletics -staff with all necessary cleaning and disinfecting solutions. Staff in this area will use these materials as appropriate and needed to promote proper hygiene and sanitation.

9) Schumo Center/Aquatics

During Phase One, Albright's Schumo Center for Fitness and Well-Being will be open by reservation for individual workout sessions, and its pool will be open for individual swim sessions. As described further below, Albright has developed protocols related to hygiene, sanitation, and face masks for both Schumo Center and aquatics staff, as well as patrons using its Schumo Center and aquatics facilities.

a) Protocols for Schumo Center and aquatics staff

Prior to starting back to work, all Schumo Center and aquatics staff will receive proper training on cleaning protocols.

All Schumo Center and aquatics staff will be provided with face masks and disposable gloves, and all staff members will wear face masks and disposable gloves when cleaning machines, equipment or other surfaces in the facility.

Throughout the areas where Schumo Center and aquatics staff work, additional no-touch garbage cans have been placed.

When cleaning the Schumo Center and aquatics areas, staff will follow these protocols:

- The entire facility shall be disinfected prior to opening.
- Disinfectant wipes will be used to wipe down plexiglass, SS tablet (prior to turning on), and any computer's keyboard/mouse prior to turning it on.
- Disinfectant wipes will be used to wipe down phone and front desk area.

Albright College Health and Safety Plan, 2020

Version 1, July 6, 2020

- Every hour, all “high touch” areas will be wiped down by Schumo Center staff. This includes: door handles throughout the fitness center, front door entrance and exit door handle, all cardio equipment railings, heartrate sensors, and touch screens, red vinyl on all equipment and benches, handles on all equipment and benches, pull-pin on all strength equipment.

After cleaning, all Schumo Center and aquatics staff will follow proper safety protocols for removing their gloves. After removing their gloves, all Schumo Center and aquatics staff will wash their hands thoroughly (with lathered soap for 20 seconds), rinse their hands with hot water, and dry their hands completely.

b) Protocols for Fitness Participants

In order to promote hygiene, sanitation, and an overall healthy and safe environment for fitness participants using the Schumo Center and aquatics facilities, Albright has developed:

- (1) General Fitness Participant and Facility Usage Protocols
- (2) Protocols on Pool Usage
- (3) Protocols for Participants when Preparing to Swim
- (4) Protocols when Swimming.

(1) General Fitness Participant and Facility Usage Protocols:

- Disposable face masks will be available for fitness participants to purchase and hand-sanitizing dispensers and sanitizing wipe stations have been installed throughout the facility.
- Fitness/pool participants must reserve a time to utilize the fitness center. Each fitness participant may reserve (7) 90-minute sessions per week.
- Follow one-way arrows for entrance through the front doors and exiting through the back doors.
- When group fitness classes return, reserve space to adhere to the new limited class size.
- Members will be required to sanitize and wipe equipment after each use.
- Members will be required to maintain six-foot distances and markers where lines form (such as the front desk area) will be provided to help determine spacing.
- All exercise equipment shall be cleaned and disinfected at regular intervals; patrons shall have access to wipes or sprays to disinfect equipment prior to and after use and shall be encouraged to follow such protocols.
- Door foot-pulls will be added to allow people to open doors with their feet and prop entrance/exit doors when possible.
- Patrons shall be encouraged to bring their own personal equipment such as yoga or exercise mats; such items should be cleaned and disinfected by the patron before bringing it into the facility.
- Participants shall wear face coverings while they are on the premises, especially if they are working in close contact with coaches and/or trainers. Face masks may be removed while exercising. Bags for personal face masks will be available at the front desk for proper storage during this time.
- When locker rooms are back in usage, use will be limited to every other locker and shower in the locker rooms.
- Strength equipment will be placed eight feet apart.
- Group exercise participants will be spaced 10 feet apart.

Albright College Health and Safety Plan, 2020

Version 1, July 6, 2020

- No contact sports will be allowed until deemed safe. This includes pick-up basketball, intramural and club sports.
- Participants will be asked to keep to the right when entering and exiting.
- Floor markers will be installed to indicate safe distancing in the lobby, locker rooms and bathrooms; riders will be asked to wait outside in their car until just before class begins.
- Use of water fountains will be limited and participants will be encouraged to bring their own water bottles.
- All magazines, books, and marketing materials will be removed.
- Participants will be required to bring their own towels for usage in the fitness center.
- Shared mats, and possibly all mats, will be removed.
- “Working in” on equipment will not be allowed. Finish sets and wipe off equipment.
- Participants will be encouraged to take 2-3 sets of dumbbells to bench, do all sets, wipe and return.
- A dedicated studio for older adults with compromised immunity and pre-existing conditions will be available.
- The number of people in room will be limited per state guidelines.
- No shared equipment; everyone has own station

(2) Protocols on Pool Usage:

- All participants will utilize back door (Birch Street) access.
- All participants must show ID and sign in at desk in pool area.
- No usage of locker rooms for changing or showering.
- Handicap bathroom to be used as restroom only.
- Increase water sanitation level - As example keep chlorine closer to 2.0 PPM.
- All five lanes will be in the water to avoid water walkers congregating together in shallow end.
- Visible markers on the floor will indicate appropriate spacing on the pool deck, entrances, etc.

(3) Protocols for Participants Preparing to Swim:

- Wash hands with a disinfectant soap and water (for 20 seconds or longer) or use a hand sanitizer if soap and water are not readily available, before going to the pool.
- Do not share equipment.
- All general pool equipment that is normally available to the public **will not** be available during initial opening phase.
- The water fountain in the pool will not be accessible. Patrons must bring a personal water bottle.

(4) Protocols When Swimming:

- Follow directions from lifeguard.
- Follow directions for spacing and stay at least six feet apart from others.
- Guards will direct swimmer to a lane until pool is full. If there are more than six swimmers, the lanes will be separated, and a swimmer will be added to each lane with maximum capacity of 11 swimmers (only one swimmer in lane one because of ladder).
- Water walkers will be assigned a line to walk in and may need to share lane with a swimmer.

- No physical contact with others, such as shaking hands.
- Suits must be worn to and from the pool to avoid utilizing locker rooms for anything other than restroom facilities.
- Leave the facility as soon as reasonably possible after swimming is complete.
- Wash hands thoroughly or use a hand sanitizer after leaving the pool.

6. Implement social distancing interventions and make the necessary modifications to facilities that may create an environment conducive to healthy, safe, equitable and inclusive learning.

a. Campus-Wide Policies

For all employees, faculty, and students, through the Albright Community Care Compact, Albright has instituted the following campus-wide policies related to social distancing:

- Maintaining a social distancing practice of at least 6 feet both on- and off-campus and replacing shaking hands, hugs and physical touching with verbal appreciation.
- Avoiding in-person meetings and instead, using Microsoft Teams or Zoom to meet with others. If an in-person meeting is essential to job function, employees will follow protocol for requesting such a meeting and will follow the guidelines outlined in the Albright Community Care Compact.

b. Further Specific Measures

Beyond the aforementioned campus-wide policies, as described below, Albright has put in place further measures when it comes to 1) Public Safety, 2) Dining Hall, 3) Student Accessibility, 4) Facilities, and 5) Schumo Center/Aquatics.

1) Public Safety

Plexi-glass has been installed in appropriate areas in this department to enhance safety on campus.

2) Dining Hall

Plexi-glass has been installed in appropriate areas in the Dining Hall to enhance safety on campus.

3) Student Accessibility

Plexi-glass has been installed in appropriate areas in this department to enhance safety on campus.

4) Facilities

Facilities has additional plexi-glass in stock if people discover that they need it installed on Albright's campus.

Also, facilities is designating proper circulation through buildings to promote distancing and virus mitigation.

5) Schumo Center for Fitness and Well-Being

To maintain proper social distancing, and to maintain a healthy and safe work environment in the Schumo Center for Fitness and Well-Being, Albright has put in place the following guidelines:

- Fitness Center is only open by reservation for individual workout sessions.
- Usage numbers will be determined by state and local guidelines, and there will be 50% or less occupancy/ability in order to maintain six feet social distancing.
- Pool is only open for individual swim sessions.
- No group exercise on land or in the pool.
- No pick-up or contact basketball in gymnasium.
- It is recommended that members of at-risk populations take greater precautions and refrain from utilizing the facility. If such members choose to exercise, they must use the designated areas within the fitness center.
- No doubles or group racquetball. Individual users must bring their own equipment.

Plexi-glass has been installed on the front desk. Staff members will remain behind the front desk with plexi-glass and wear appropriate PPE (masks/gloves), and they will only be permitted to leave for cleaning duties and personal breaks.

Proper signage has been put in place to promote social distancing, and usage of cardio equipment will be limited to every other machine in order to further promote social distancing. Some machines will be turned off.

C. Appendix A

Albright College Athletics Staff/Student-Athlete COVID-19 Screening

(Please note: This form is for those who cannot access the Healthy Together app or choose not to. It will be available electronically via Google docs)

Name (last, first): _____ Cell Phone #: _____

Gender: Male Female

Student ID#: _____ Date of Birth: _____

Sport(s): _____

Please complete all sections on this form to assess your potential exposure/possession of COVID-19 and other illness.

Are you currently free from illness? Yes No

During your time away from Albright, did you experience, or are you currently experiencing any of the following symptoms?

SYMPTOM	YES	NO	LENGTH OF SYMPTOM (DAYS)	EXPLANATION
Fever				
Body Chills				
Extreme level of fatigue				
Cough				
Pain/Difficulty Breathing				
Shortness of Breath				
Sore Throat				
Body/Muscle Aches				
Loss of Taste				
Loss of Smell				
Changes to Vision/Eye Discharge				

QUESTIONS	YES	NO
2-14 days prior to experiencing these symptoms, did you experience a suspected exposure to COVID-19?		
Have you had any direct contact with anyone who lives in or has visited a place where COVID-19 is spreading and/or is an area reporting an increased number of COVID-19 cases (i.e. "hot spots")?		

Albright College Health and Safety Plan, 2020

Version 1, July 6, 2020

Have you had any direct contact with someone that has a suspected or lab confirmed case of COVID-19?		
During your time away from Albright, did you self-quarantine due to suspected symptoms or exposure of COVID-19?		
During your time away from Albright, have you been living in, or have visited an area reporting an increased number of COVID-19 cases (i.e. "hot spots")?		

Have you previously been or are you currently diagnosed with COVID-19?

Yes No

Date of Diagnosis: _____

Do you have medical documentation to support your diagnosis and treatment of COVID-19?

Yes No

Physician Name: _____

Physician Address: _____

Physician Phone Number: _____

Please list any counties/states/cities you have traveled to since March 15th, 2020 and the dates you were there:

1. _____ Dates: _____
2. _____ Dates: _____
3. _____ Dates: _____
4. _____ Dates: _____
5. _____ Dates: _____

Staff/Student-Athlete Signature: _____ Date: _____

Athletic Trainer/ MD Signature: _____ Date: _____
