## SRBC Releases Proposed Rulemaking and Related Groundwater Review Policies for Public Comment

The Susquehanna River Basin Commission has released a proposed rulemaking and three related groundwater review policies for public comment. The rulemaking and policies will be open for written public comment until May 17, 2021, and oral testimony may be provided at a public hearing on May 6, 2021.

The proposed regulations and policies are designed to provide clarity to project sponsors, target Commission oversight to the most appropriate activities, establish a more efficient and effective framework to review groundwater withdrawals, and solidify processes to handle an anticipated 200-250 groundwater renewal applications over the next 5 years. In addition, with the successful implementation of grandfathering registration, the regulation proposes changes that simplify regulations concerning these grandfathered

projects. The regulations would also codify and build upon successful program changes with the Commission's natural gas consumptive use program, its minor modification regulation, and general project review regulations.

The proposed changes should benefit both the Commission and the regulated community, while maintaining proper oversight of water resources. The proposed rules will ensure wells are permitted and monitored in efficient but robust ways that will help reduce costs, both to systems that are smaller and those that have economic challenges.

The Commission will hold two informational webinars on April 6 and April 14 to help the public and regulated community understand the proposal and answer questions from the stakeholder community. The proposed rulemaking and policies are available on the Commission's website, <https://mdw.srbc.net/alternative-hydrogeologic-evaluation-policy/>, or can be made available upon request by contacting Jason Oyler, Secretary and General Counsel of the Commission at (717) 238-0423 ext. 1312 or at [joyler@srbc.net](mailto:joyler@srbc.net).

# Pennsylvania Accelerating Vaccine Strategy

On March 31, 2021, the Department of Health (DOH) in conjunction with the COVID-19 Vaccine Task Force announced the start of the special initiative to vaccinate targeted industry workers and to accelerate the vaccination timetable for those in Phases 1B, 1C and 2. All Pennsylvanians will be eligible to schedule vaccination appointments beginning April 19.

“The vaccine landscape continues to evolve as the federal government is increasing allocations to more retail pharmacy chains across the country,” Acting Health Secretary Alison Beam said. “To ensure that vaccine continues to get to people efficiently and equitably, Pennsylvania is adapting its plan to allow workers in targeted industries to access any of the three vaccines available at providers throughout the state, and to accelerate our eligibility for remaining phases of the state’s vaccination plan.

“Pennsylvania’s vaccine providers have dramatically stepped up the pace of vaccinations to an average of 83,000 per day, moving the keystone state higher and higher in the rankings with other states. As we complete Phase 1A vaccinations, it’s time to open eligibility to more Pennsylvanians so providers can continue to fill appointments and efficiently, effectively and equitably vaccinate more people every day.”

Pennsylvania will begin the following accelerated phased rollout:

- March 31 workers in the four targeted industries that Gov. Wolf and the Task Force announced on March 12:
  - Law enforcement, which includes police, sheriffs and deputies, constables, corrections officers and staff, as well as probation and parole staff.
  - Firefighters, including career and volunteer firefighters.

- Grocery Store workers, including all workers in supermarkets and grocery stores.
- Food and Agriculture workers, including all food processing company employees, including meat, poultry, and dairy processing, fresh fruit and vegetable packing operations, food manufacturing, all farmworkers, farm operators, and farm managers, including at urban agriculture operations.

- April 5 all residents in Phase 1B will be eligible to start scheduling vaccination appointments.
- April 12 all residents in Phase 1C will be eligible to start scheduling vaccination appointments.
- April 19, all residents will be eligible to start scheduling vaccination appointments.

“It is important to remember that eligibility does not guarantee an immediate vaccination appointment,” Beam said. “Vaccine providers are ready and eager to get a shot in the arm of every person who wants one while we continue to aggressively advocate for more vaccine.” COVID-19 Vaccine Task Force members discussed the benefits of the accelerated plan.

“President Biden has asked us to make every adult eligible for vaccination with the vaccine he is providing,” said Sen. Art Haywood. “We can do it; we can make the change. We can get more vaccine to Southeast PA and across the commonwealth and target vaccine, so no one is left out.”

“Due to the successful implementation of the COVID-19 Vaccine Task Force’s revised strategic plan, along with an increasing supply of vaccine doses from the federal government and the tremendous work of our provider network, Pennsylvania is now in a position to pursue an aggressive timeline to ensure any Pennsylvanians who wants to be vaccinated is eligible to do so by April 19,” said Sen. Ryan Aument. “As we expand eligibility, we must not forget about our seniors and our commitment to prioritize them and others in Phase 1A, as well as our frontline workers such as law enforcement and first responders in Phase 1B.”

“We can meet President Biden’s request with the amount of vaccines he is providing,” Rep. Bridget Malloy Kosierowski said. “Pennsylvania has done the work to make this a reality. I have said time and time again that this will get better, and it is. Our dedicated providers, who are on the ground every day, Governor Wolf’s administration, and our task force have collaboratively worked together in prioritizing the health and safety of all Pennsylvanians.”

“Today is a day of hope and optimism,” said Rep. Tim O’Neal. “Earlier this month, we announced plans to prioritize our essential workers and first responders by offering the Johnson & Johnson vaccine to them in the coming weeks. We have now done that today. In addition, we have set a timeline so that anyone who wants the vaccine will get able to begin scheduling their appointment at the latest by April 19. The light at the end of the tunnel is getting brighter and brighter every day.”

Residents should continue to use the Department of Health’s **Vaccine Provider Map** <https://www.health.pa.gov/topics/programs/immunizations/Pages/COVID-19-Vaccine-Providers.aspx#map> to find a vaccine provider nearest them. The department will continue to update the map as the federal government increases the number of pharmacy chains receiving vaccine through the Federal Retail Pharmacy Partnership.

People without internet access can contact the Health Hotline by calling 1-877-PA-HEALTH (1-877-724-3258).

You can find the recording of today’s press conference at <http://www.pacast.com/>.

## Revenue Department Releases March 2021 Collections

**P**ennsylvania collected \$4.8 billion in General Fund revenue in March, which was **\$378.2 million, or 8.5 percent, more than**

**anticipated**, Revenue Secretary Dan Hassell reported. Fiscal year-to-date General Fund collections total \$28.7 billion, which is **\$1.3 billion, or 4.7 percent, above estimate**.

**Sales tax receipts** totaled \$916.0 million for March, \$85.8 million above estimate. Year-to-date sales tax collections total \$9.3 billion, which is **\$256.8 million, or 2.8 percent, more than anticipated**.

**Personal income tax (PIT) revenue** in March was \$1.4 billion, \$95.1 million above estimate. This brings year-to-date PIT collections to \$11.2 billion, which is \$272.6 million, or 2.5 percent, above estimate.

**March corporation tax revenue** of \$2.2 billion was \$82.6 million above estimate. Year-to-date corporation tax collections total \$4.6 billion, which is **\$476.7 million, or 11.5 percent, above estimate**.

**Inheritance tax revenue** for the month was \$155.7 million, \$59.5 million above estimate, bringing the year-to-date total to \$963.2 million, which is **\$105.8 million, or 12.3 percent, above estimate**.

**Realty transfer tax revenue** was \$52.5 million for March, \$16.5 million above estimate, bringing the fiscal-year total to \$465.6 million, which is **\$68.7 million, or 17.3 percent, more than anticipated**.

**Other General Fund tax revenue**, including cigarette, malt beverage, liquor and gaming taxes, totaled \$70.1 million for the month, \$21.1 million above estimate and bringing the year-to-date total to \$1.3 billion, which is **\$62.0 million, or 4.9 percent, above estimate**.

**Non-tax revenue** totaled \$118.8 million for the month, \$17.6 million above estimate, bringing the year-to-date total to \$825.3 million, which is **\$37.0 million, or 4.7 percent, above estimate**.

In addition to the General Fund collections, the **Motor License Fund** received \$229.8 million for the month, \$10.3 million above estimate. Fiscal year-to-date collections for the fund - which include the commonly known gas and diesel taxes, as well

as other license, fine and fee revenues - total \$2.0 billion, which is **\$28.9 million, or 1.4 percent, below estimate.**

## Gov. Wolf Praises Biden Administration's Bold Infrastructure Plan

**G**ov. Tom Wolf joined President Joe Biden in Pittsburgh today and issued the following statement on the president's announcement of his American Jobs Plan, which focuses on many of the same priorities that the governor has been calling for throughout this administration:

"I'm grateful that President Biden recognizes that our nation's infrastructure, from our highways and bridges, to housing, broadband and more, demands immediate attention. These issues are critical to our public safety, our quality of life, our environment and our economy. This bold and necessary proposal will help move our commonwealth and our nation forward toward a brighter, stronger future.

"Our infrastructure is a critical component to our economic recovery. As businesses recover and our workforce grows, they depend on our vast transportation network. Infrastructure projects are also job creators, further spurring economic growth.

"Ensuring reliable broadband internet access is increasingly important for all Americans. From education and work to healthcare and social connection, this access is the key to bridging the digital divide.

"Broadband access is only truly successful if those who are living, working and learning are in stable structures. Ensuring strong and stable housing, commercial buildings and schools is critical for safety and energy efficiency.

"I share the president's priorities, which would build on my administration's previous Restore PA plan and current Back to Work PA plan, and I look

forward to working with the Biden Administration in its efforts to make this plan a reality.

"Earlier this year I urged Congress <https://www.governor.pa.gov/newsroom/gov-wolf-urges-congress-to-prioritize-critical-infrastructure-needs-to-move-pa-forward/> to prioritize many of these same critical infrastructure needs for our commonwealth and I'm pleased that President Biden shares these priorities for the entire nation. I again urge Congress to make this comprehensive plan a priority so that we all can work together to help this country build back better."

## SRBC Announces Water Level Monitoring Grants

**T**he Susquehanna River Basin Commission (SRBC or Commission) is offering a new grant program to support the collection and reporting of water level data in groundwater production wells. The goal is to promote practices that improve the sustainability of the basin's water resources.

The Commission has dedicated \$120,000 to fund the program for its first year. Grant recipients may receive up to \$1,500 per source, with a facility cap of \$7,500 per year. Grants may be used for approved projects that are not currently collecting water level data from their well(s) or may be used to upgrade equipment to meet the Commission's requirements to monitor and report operational data. Successful applicants will collect and report the water level data to the Commission.

The program is open to both public and non-public project sponsors. Most projects in the Susquehanna River Basin approved to withdraw groundwater are eligible to apply. Although project sponsors generally must have a current docket approval with SRBC, project sponsors with a grandfathering certificate or operating under an order to make application for groundwater wells are also eligible.

All eligible projects will be considered. Should the number of applications exceed the budget for this year's grant round, the Commission will

generally follow prioritization criteria included in the grant package materials.

Applications open on April 1, 2021, and must be received by June 30, 2021. Funding announcements will be made after August 1, 2021. For additional information and details about how to apply, visit the SRBC website or use the link:

<https://www.srbc.net/our-work/what-we-do/water-level-monitoring-grants.html>.

## Federal REAL ID Enforcement Begins Oct. 1, 2021

*PennDOT has surpassed 1 million optional REAL ID-compliant driver's licenses, ID cards*

With only six months left until the federal enforcement of REAL ID begins for commercial domestic air travel and other federal purposes, the Pennsylvania Department of Transportation (PennDOT) is reminding Pennsylvania residents who want a REAL ID-compliant driver's licenses and photo ID cards to gather their needed documents as soon as possible to ensure they leave plenty of time to get their REAL ID before the federal enforcement date.

To date PennDOT has issued approximately 1.1 million REAL ID products.

REAL ID is a federal law that affects how states issue driver's licenses and ID cards if they are going to be acceptable for federal purposes, such as boarding a domestic flight or entering a federal building that requires federally acceptable ID upon entry. A federally acceptable form of identification (whether it's a Pennsylvania REAL ID driver's license or ID card, a valid U.S. Passport/Passport Card, a military ID, etc.) must be used for these purposes on and after October 1, 2021.

There is no requirement that any resident obtain a REAL ID; PennDOT continues to offer standard-issue driver's licenses and photo IDs.

"Although October may seem far away right now, we encourage our customers who want a REAL ID to get one as soon as possible," said PennDOT Secretary Yassmin Gramian. "We continue to focus on providing the best possible customer service to all of our customers as the federal deadline approaches."

Based on data from other states offering an optional REAL ID program, PennDOT projected that 1.3 million of its customers would get a REAL ID prior to the federal deadline of October 1, 2021. Having crossed the threshold of issuing 1 million REAL ID-compliant products in December 2020, PennDOT is well-positioned to reach this target by the federal enforcement deadline.

Since March 1, 2019, PennDOT has processed about 5.4 million customers, with more than 1.1 million individuals choosing to opt into the REAL ID program. The remaining 4.3 million have chosen not to participate or use an alternative federally acceptable form of ID come the October deadline.

PennDOT paused REAL ID issuance in March 2020 due to COVID-19 out of an abundance of caution and in the interest of public health and resumed issuing REAL IDs in September 2020.

Additionally, the federal Department of Homeland Security postponed the enforcement date for REAL ID from October 1, 2020, to October 1, 2021, in response to COVID-19 and the national emergency declaration.

"We want to do everything we can to encourage residents interested in applying for a REAL ID to start the process now and be aware of all the proper documentation needed," said Gramian. "This will help ensure our customers have their REAL ID well in advance of the October 1, 2021 deadline."

Customers can obtain a REAL ID by presenting documents for verification and processing at any driver license center. Federal regulations require that to be issued a REAL ID-compliant product, PennDOT must verify the below documents:

- **Proof of Identity:** Examples include original or certified copy of a birth certificate filed with the State Office of Vital Records/Statistics with a

raised seal/embossed or valid, unexpired, U.S. Passport;

- **Proof of Social Security Number:** Social security card, in current legal name;
- **Two Proofs of Current, Physical PA Address:** Examples include a current, unexpired PA driver's license or identification card, vehicle registration or a utility bill with the same name and address; and
- **Proof of all Legal Name Changes** (if current legal name is different than what is reflected on proof of identity document): Examples include a certified marriage certificate(s) issued by the County Court for each marriage, court order(s) approving a change in legal name or amended birth certificate issued by the State Office of Vital Records/Statistics.

If current name is the same as what is reflected on proof of identity document (usually birth certificate or passport), a customer does not need to show proof of legal name changes.

Customers have three options for obtaining a REAL ID product: Customers may order their REAL ID online if they have been pre-verified and their REAL ID product will be mailed to them within 15 business days; they can visit any PennDOT driver license center that is open for driver license services, have their documents verified and imaged, and their REAL ID product will be mailed to them within 15 business days; or they can visit one of 13 REAL ID Centers and receive their REAL ID product over the counter at the time of service.

For a full list of driver license centers and their services, please visit the PennDOT Driver and Vehicle Services website, <https://dmv.pa.gov/>.

When a customer gets their first REAL ID product, they will pay a one-time fee of \$30, plus the applicable renewal fee (current renewal fee is \$30.50 for a four-year non-commercial driver's license, and \$31.50 for a photo ID). The expiration date of their initial REAL ID product will include any time remaining on their existing non-REAL ID product, plus an additional four years, unless the customer is over 65 and has a two-year license. This expiration date structure means that the customer won't "lose" time that they've already paid for. After

the initial REAL ID product expires, the customer will pay no additional fee, beyond regular renewal fees, to renew a REAL ID product.

REAL ID-compliant products are marked with a gold star in the upper right corner, standard-issue (non-compliant) products include the phrase "NOT FOR REAL ID PURPOSES," per federal regulations. Sample images can be viewed on **PennDOT's website** <https://www.dmv.pa.gov/REALID/Pages/REAL-ID-Images.aspx>.

More information about REAL ID in Pennsylvania, including **frequently asked questions** <https://www.dmv.pa.gov/Pages/REAL-ID-Frequently-Asked-Questions.aspx> and information on **documents required for REAL ID** <https://www.dmv.pa.gov/REALID/Pages/REAL-ID-Document-Check.aspx>, can be found at <http://www.penndot.gov/REALID>.

## **#CallUtilitiesNow - PUC Continues to Encourage Consumers and Small Businesses to Discuss Affordability Options with Utilities**

*Essential for Customers to Call Utilities to Discuss Assistance Programs and/or Payment Plan Options to Avoid Termination and #KeepUtilitiesOn*

**T**he Pennsylvania Public Utility Commission continues to encourage consumers and small businesses who are struggling financially to #CallUtilitiesNow to discuss the options available to address any past-due balances, apply for available assistance programs, and review payment plan options - all focused on keeping households and businesses connected to vital utility services.

In a **special statement** <https://www.youtube.com/watch?v=DChj2iJzRew>,

PUC Chairman Gladys Brown Dutrieulle emphasized that a direct conversation between customer and utility is the best "first step" for any Pennsylvania household or business to #KeepUtilitiesOn, whether your financial difficulties are related to the COVID pandemic or other circumstances.

Utilities understand the assistance programs available in their communities - including utility-run Customer Assistance Programs (CAP) for income-qualified consumers, national programs like LIHEAP (Low Income Home Energy Assistance Program), and various hardship funds operated by utilities and non-profit organizations to #KeepUtilitiesOn. Utilities also can help enroll consumers in assistance programs, guide them to other available resources and discuss new payment plan options to address overdue balances and help consumers move forward.

### At-Risk Consumers in Pennsylvania

According to the most recent utility reports submitted to the PUC, there are just over 890,000 residential utility accounts at-risk of termination - and while the total number of accounts has gradually declined since a peak in October 2020, when they reached almost 1.1 million, the total dollar amount owed by at-risk households has continued to grow, now topping \$856 million.

The PUC noted that millions of dollars in financial assistance is currently available from utilities and various supplemental programs, and the Commission encouraged every eligible individual and household to make use of those funds to address their balances and #KeepUtilitiesOn.

The households of greatest concern include:

- Utility customers experiencing financial difficulty for the first time and unaware of the resources available or the process for requesting assistance.
- Households that did not qualify for assistance in the past, because of higher incomes, but may now be eligible because of the financial impact of the pandemic.

- CAP customers who have not renewed their assistance plan enrollment for the new year - risking removal from those programs.
- Households who qualify for LIHEAP financial assistance but have not applied for seasonal or supplemental aid.
- Individuals who may qualify for "rent and utility assistance" available through counties across Pennsylvania.

#CallUtilitiesNow is the best way to identify what help may be available to you, your family and your business. Also, be sure to call all your utilities: electric, natural gas, water/wastewater and telecommunication because each may have different programs or resources available.

### Payment Plans & Flexible Income Verification

On March 11, 2021, the PUC required all Commission-regulated electric, natural gas, water, wastewater, telecommunications, and steam utilities to modify their existing collection policies to provide additional payment plan options <https://www.puc.pa.gov/press-release/2021/puc-creates-added-2021-safeguards-to-help-households-and-small-businesses-address-past-due-utility-bills> for residential and small business customers.

Residential customers qualify for payment arrangements to gradually pay down their previous balances over an extended period - with a minimum length of one to five years, depending on their income level (lower income levels qualify for longer payment periods) - and small business customers qualify for payment arrangements with a minimum length of 18 months.

Additionally, utilities and the PUC's Bureau of Consumer Services may continue to use flexible means for income verification and business status information - such as over-the-phone or via electronic mail, for the purpose of qualifying customers for payment arrangements and/or universal service programs.

### About the PUC

Visit the PUC's website at [www.puc.pa.gov](http://www.puc.pa.gov) for recent news releases and video of select proceedings. You can also follow us on Twitter,

Facebook, LinkedIn, Instagram and YouTube. Search for the "Pennsylvania Public Utility Commission" or "PA PUC" on your favorite social media channel for updates on utility issues and other helpful consumer information.

## Wolf Administration Reminds Businesses to Ensure a Safe Workspace for Employees and Customers Alike

*Telework Order Updated to be Encouraged, but not Mandated*

As Pennsylvania continues to accelerate vaccine eligibility and availability and mitigate the spread of COVID-19, the Wolf Administration today said that all Pennsylvanians should take continued steps to ensure a safe workspace for employees and customers alike.

“We are making tremendous progress vaccinating Pennsylvanians and are now able to accelerate our state vaccine plan,” Department of Health Acting Secretary Alison Beam said. “As we move forward, we are reminding Pennsylvanians that it is still imperative that they follow current personal mitigation efforts such as wearing a mask, maintaining social distance and following gathering and occupancy guidelines so we can protect public health while we jump-start our economy.”

“The COVID-19 virus is still present in our communities,” Beam added. “We encourage anyone who feels they need, or wants, a COVID-19 test to take advantage of hundreds of testing locations if they feel they have been exposed to COVID-19. Testing remains the best way to determine your exposure to and to ultimately stop the spread of COVID-19.”

“We've made significant progress in our battle against COVID-19, so we must continue abiding by

all guidelines and orders, including masking and social distancing when out and about,” said Department of Community and Economic Development (DCED) Sec. Dennis Davin. “The best way to support our local businesses is to create a safe environment for everyone so that we can combat the virus’ spread, which will help position us to bounce back easier and faster long term.”

The Wolf Administration offers guidance online through the administration's guidance for businesses <https://www.governor.pa.gov/covid-19/business-guidance/> and guidance for businesses in the restaurant industry <https://www.governor.pa.gov/covid-19/restaurant-industry-guidance/>.

The **Open & Certified Pennsylvania** <https://www.pa.gov/covid/open-and-certified-pennsylvania/> process is still open for restaurants that are interested in self-certifying to increase indoor capacity. There is no cost to self-certify and restaurants can access the **online self-certification form here** <https://spportal.dot.pa.gov/self-certify/pages/self-certify.aspx>. Self-certified restaurants can promote their status with provided branded signage and consumers can search the **Open and Certified database** <https://spportal.dot.pa.gov/self-certify/pages/self-certify-search.aspx> to confirm what businesses near them have self-certified. Business owners with additional questions about the self-certification program can contact [covidselfcert@pa.gov](mailto:covidselfcert@pa.gov) and view **Frequently Asked Questions** <https://dced.pa.gov/wp-content/uploads/2020/09/Open-Certified-Pennsylvania-FAQs.pdf> as a reference for restaurant owners and the public.

Newly updated orders and guidance, which take place Sunday, April 4, are available online:

**Governor’s Order** <https://www.governor.pa.gov/wp-content/uploads/2021/04/2021.4.1-TWW-v2-amended-mitigation-enforcement-immunity-order.pdf>, as amended.

**Secretary of Health Order** <https://www.governor.pa.gov/wp-content/uploads/2021/04/2021.4.1-Amendment-to->

[Order-of-the-Secretary-Mitigation-and-Enforcement.pdf](#), as amended.

### Frequently Asked Questions

<https://www.health.pa.gov/topics/disease/coronavirus/Pages/Guidance/Targeted-Mitigation-FAQ.aspx>.

Also starting Sunday, April 4, telework for businesses will be highly encouraged; previously, telework was to be used unless it was not possible to do so.

## PUC Proposes New Rules on Replacement of Consumer-Owned Lead Service, Damaged Wastewater Service Laterals Cost Recovery

The Public Utility Commission invites comments on a proposed rulemaking addressing the replacement of consumer-owned lead service lines and damaged wastewater service laterals (DWSL) and the recovery of associated costs. (*PA Bulletin*, page 1802 <http://www.pacodeandbulletin.gov/secure/pabulletin/data/vol51/51-14/51-14.pdf>)

Act 120, signed by Gov. Wolf on Oct. 24, 2018, amended the Public Utility Code regarding the replacement of lead service lines (LSLs) and damaged wastewater service laterals (DWSLs) and the recovery of associated costs.

Act 120 directs the Commission to establish certain standards, processes, and procedures by regulation to ensure a warranty on the utility's replacement work and reimburse customers who replaced LSLs and DWSLs at their own cost.

The NOPR is the result of several months of work, first directed in a Joint Motion of Oct. 3, 2019 <https://www.puc.pa.gov/pdocs/1638785.pdf>, that included a PUC-convened working group, along with directed questions to interested stakeholders for comment on the replacement of

LSLs and DWSLs-- including parameters for planning and reporting, communication, replacements, refusals, 66 Pa. C.S. § 1311(b), and rates.

Interested parties may submit written comments, via the Commission's electronic filing system, referencing Docket No. L-2020-3019521 within 60 days of publication in the Pennsylvania Bulletin, and reply comments 30 days thereafter.

Filing information can be found on the Commission's website at <https://www.puc.pa.gov/filing-resources/efiling/>.

Read the entire PA Bulletin notice for more information on filing comments here <http://www.pacodeandbulletin.gov/secure/pabulletin/data/vol51/51-14/51-14.pdf>.
