

EXPLORE OUR SUMMER PROGRAM

5 WEEKS/M-F, BEGINNING JUNE 24, 2024—GRADES 5-12

Our acclaimed summer program provides an exceptional Total Experience Learning® (TExPL) atmosphere that spans various creative, technological, and educational fields. Employing our exclusive student-driven learning approach, our instructors introduce cutting-edge topics while assisting participants in crafting individual projects within their areas of interest.

Throughout the program, our dedicated Total Experience Learning team aids students in discovering their passions, fostering confidence, and translating their ideas into reality. These dedicated professionals inspire students to cultivate intellectual agency and innovative thinking by guiding them through essential processes such as identifying problem statements, conducting research, testing and developing prototypes, assessing progress, iterating, and if necessary, safeguarding intellectual property.

TRACK OFFERINGS

***Each track is a full 5 weeks. If you are unable to attend a particular week due to a prior commitment or vacation, you may still enroll. However, the full cost of the track is still required.**

ESPORTS

Looking for a summer camp track that combines the fun of gaming with the opportunity to learn valuable skills? Look no further than our Esports summer camp track! Designed for students who love playing Overwatch and who want to dive deeper into the world of esports, this track provides a unique experience that blends gaming with learning. Participants will have the opportunity to develop general e-sports skills such as communication, team play, and game skills, while also exploring the billion-dollar industry of esports. Plus, we'll build a competitive Overwatch team and host an end-of-summer mini-tournament for all participants to showcase their skills. Don't miss out on this exciting opportunity to explore the world of e-sports while having fun with fellow gamers! *(Permission forms required for students aged 12 and under)*

THEATRE/PERFORMING ARTS

Explore your passion for theater and performing arts in this summer program track that will inspire students to collaborate and, depending on student interest, possibly create their very own production! This program will help develop your "triple-threat" of performance skills — acting, singing and dance. Students will have the opportunity to showcase what they've worked on during the end of summer celebration. Join us this summer for a robust theatre experience!

MUSIC PRODUCTION

Step into the world of music production with our exciting program designed to ignite your passion for creating soundscapes that captivate and inspire. Our program will equip you with the skills and knowledge to utilize industry-standard tools like Logic Pro, unleashing your creative potential. Join us this summer for a sound journey, where you'll drum up not only lasting memories but a deep understanding of the music industry.

CULINARY SCIENCE

Are you a foodie who loves to experiment in the kitchen and is fascinated by the science behind cooking? Look no further than our Culinary Science summer program! This track offers a unique opportunity to finely hone your culinary skills while also delving into the science of cooking. Learn about the chemical reactions that occur in the kitchen and how they affect flavor and texture. Sharpen your knife skills, master new baking techniques, and explore the world of cooking. This program is perfect for anyone looking to take their culinary skills to the next level. Join us for an unforgettable summer of culinary exploration and discovery!

FASHION

Our Fashion summer program is tailor-made for you! This program track offers a hands-on experience allowing you to develop design and construction skills and the opportunity to work collaboratively with students from other tracks. You could be part of the team creating show-stopping costumes for their end-of-summer production as well as showcasing your original pieces in a fashion show finale. Our industry experts will guide you through the various aspects of fashion design, from ideation and sketching to patternmaking, sewing, and finishing techniques. This summer, bring your creative visions to life!

VISUAL ARTS

Join us this summer in exploration of a range of fine art techniques, including basic art skills, drawing exercises, acrylic painting, printmaking, screen printing, public art design and fabrication in our Visual Arts track. Learn about how public art can benefit you and your community. Artist-led seminars will help to guide you on your creative journey. This summer only — participate in the installation of a mural on the rear wall of the TExpl Center on Albright's campus! Whether you're a seasoned artist or just starting, our program provides the perfect space for you to tap into your creativity and create something truly extraordinary.

TOTAL EXPERIENCE LEARNING RESEARCH

The TExpl research track offers a unique opportunity for you to develop any project based on your interests and passions. Whether you're interested in exploring cutting-edge scientific research or investigating the latest trends in pop culture, our experienced mentors will help guide you in the process of creating a project that is both challenging and rewarding. With access to state-of-the-art research labs and equipment, you'll be able to gather data and conduct experiments to support your research. Don't miss this opportunity to pursue your intellectual passions and develop your research skills. Join us for an unforgettable summer of exploration and discovery!
